

L&G PMC Fixed Interest Fund 3

WorkSave Buy Out Plan/WorkSave Pension Plan/WorkSave Pension Trust

FUND AIM

To maximise returns by investing in UK Government stocks and other readily marketable fixed interest securities. The fund may also include stocks of overseas governments and companies.

During periods of stressed market conditions, it may be appropriate for this fund to hold a small amount of cash or other money market assets, and so the fund will not be completely invested in the target asset class.

RISK AND REWARD PROFILE

The fund's risk rating is based on the historic volatility of the fund's value and it may change in the future.

Investment funds with a lower risk profile typically exhibit fewer price fluctuations and therefore a lower probability of temporary capital losses. Funds with a high risk rating typically experience greater fluctuations in value and maintain a greater risk of capital losses.

For more information on the investment risks that are specific to this fund, please refer to the Fund Specific Risks section on page 3.

USING THIS FUND FACT SHEET

- This fact sheet contains detailed information about the fund. We suggest you read it carefully, along with any other investment related material available to you on your scheme website before deciding whether to invest.
- For more information on the terms used in this guide, please see the glossary on the last page.
- Each fund has a unique four digit reference code, which you'll find below. You'll need to use this code when telling us where you would like to invest your savings.
- Legal & General fund code: **B9M3**

FUND FACTS

Launch date	Legal & General fund size	Indicative spread
26 Oct 2018	£135.7m	0.10%
ABI Sector	Benchmark	
Sterling Fixed Interest	FTSE All Stocks Gilt Index	

PERFORMANCE (%)

The graph below shows how the fund has performed over the last five years (or since the fund launched) compared with the fund's benchmark or comparator. The first table shows the total percentage change over **three months, six months and one year**, and the **annualised percentage change over three and five years**. Please note we have recently changed these performance periods and bases. The second table shows performance for 12-month periods over the last five years to the end of the last quarter.

ANNUAL PERFORMANCE (%)

12 months to 30 September	2024	2023	2022	2021	2020
Fund	8.97	-2.03	-22.39	-6.28	4.54
Benchmark	7.86	-2.47	-23.29	-6.81	3.41

Performance data source: Lipper. **Returns are calculated on the basis of daily midday dealing prices, those at which you transact.** Other fact sheets may show returns on a different basis, e.g. daily midday mid-market prices. Fund performance is shown net, which is after the deduction of the fund management charge.

The fund performance does not take account of any product charges applicable to your scheme. You can find more information about our charges in the terms and conditions booklet (for example, the Member's Booklet and Member's Policy Booklet) or Key Features documents.

Past performance is not a guide to the future. The value of an investment is not guaranteed and can go down as well as up. Exchange rate variations can cause the value of overseas investments to increase or decrease. You may not get back the amount you originally invested. For overseas markets the figures are sterling adjusted and net of any withholding tax.

Important: a fund switch affecting this fund occurred in the past – see page 3 for details

CHARGES

Investment management charge (IMC)	0.09%
Additional expenses (AE)	0.00%
Fund management charge (FMC = IMC + AE)	0.09%

The IMC is taken by adjusting the unit price of the fund daily.

- change your investments
- plan your future using our tools and calculators

PORTFOLIO BREAKDOWN (%)

All data source LGIM unless otherwise stated. Totals may not sum due to rounding. As at 29 December 2022 LGIM has changed strategic data sourcing for LGIM Client Reporting and Factsheets for Active Fixed Income portfolios. This impacts the methodology used to calculate the management information provided in the documentation and may change the observed results. For the avoidance of doubt, these changes have not impacted the investment management of any funds/portfolios.

SIMON BELL

Simon is a portfolio manager within the Active Liability Solutions team where he is responsible for the management of a number of global rates portfolios. Simon joined LGIM in March 2012. Previously, Simon was at Aberdeen Asset Management where he was a portfolio manager in both the Global Macro team and the European Product team for four years. Simon graduated from Bournemouth University with a BA (hons) in financial services and holds the Investment Management Certificate.

FUND SPECIFIC RISKS

- Investment returns on fixed interest securities, such as corporate and government bonds, are particularly sensitive to trends in interest rate movements and inflation. Their values are likely to fall when interest rates rise. Such falls may be more pronounced in a low, or negative interest rate environment and longer dated fixed interest securities will fall by more than short dated fixed interest securities.
- The fund invests in fixed interest securities. The financial strength of a company or government issuing the security determines their ability to make some or all of the payments due. If this financial strength weakens, the chances of them not making payments increases and this will reduce the Fund's value.
- The Fund may undertake derivative transactions as part of efficient portfolio management ("EPM") or reduction in investment risk in line with the Historic FCA Permitted Links rules
- The fund should be utilised as part of a diversified investment strategy within a wider portfolio of funds. These funds are not designed to be solely invested in.
- This fund is able to delay paying out, which may mean that you have to wait to get your money. A delay may happen when market conditions mean it is difficult for the fund manager to cash in investments to pay out to investors. For example, a fund with investments in commercial properties may find they may take time to sell. Whilst waiting to complete on the sale of properties, the fund manager may suspend making payments to investors who want to cash in. The fund can only delay paying out if it is in the interests of all investors.

Fund switch: The L&G PMC Fixed Interest Fund 3 (EAD3) was moved into this fund B9M3 on 26 October 2018. The performance data shown before this date is for the L&G PMC Fixed Interest Fund 3 (EAD3).

LEGAL & GENERAL INVESTMENT MANAGEMENT

We are one of Europe's largest asset managers and a major global investor, with assets under management of £1,122.2 billion (as at 30 June 2024). We work with a wide range of global clients, including pension schemes, sovereign wealth funds, fund distributors and retail investors.

Source: LGIM internal data as at 30 June 2024. The AUM disclosed aggregates the assets managed by LGIM in the UK, LGIMA in the US and LGIM Asia in Hong Kong (2018-2019 only). The AUM includes the value of securities and derivatives positions.

GLOSSARY

Investment management charge (IMC)

This charge covers the costs of managing your fund.

Additional expenses (AE)

This is an allowance for variable fund expenses not included in the IMC.

Fund management charge (FMC)

This charge is the sum of the IMC and AE. Please see your Member's Booklet, Member's Policy Booklet or Key Features document for more information.

ABI sector

ABI sectors are defined by the Association of British Insurers (ABI). They are a way of grouping funds with similar characteristics so they're easier to compare.

Lipper

A company that supplies fund data such as performance. We use Lipper to provide past performance data on our fund fact sheets.

Indicative spread

'Spreads' reflect the underlying costs of buying and selling assets in a fund and are included in the daily unit price so will not be shown as a separate charge on your statements. The spread shown aims to provide an indication of potential spreads incurred when transacting in this fund, but what you pay will vary from this. You can find more information on transaction costs here.

In exceptional market conditions spreads may widen considerably and be subject to frequent change, so what you pay may be significantly different and higher from normal market conditions.
