

L&G PMC UK Smaller Companies Fund 3

WorkSave Buy Out Plan/WorkSave Pension Plan/WorkSave Pension Trust

FUND AIM

To provide the potential for long-term growth by investing in a portfolio predominately of UK shares, consisting mainly of smaller companies. The fund primarily invests in companies which comprise the lowest 10% (by capitalisation) of the UK stock market.

RISK AND REWARD PROFILE

The fund's risk rating is based on the historic volatility of the fund's value and it may change in the future.

Investment funds with a lower risk profile typically exhibit fewer price fluctuations and therefore a lower probability of temporary capital losses. Funds with a high risk rating typically experience greater fluctuations in value and maintain a greater risk of capital losses.

For more information on the investment risks that are specific to this fund, please refer to the Fund Specific Risks section on page 3.

PERFORMANCE (%)

The graph below shows how the fund has performed over the last five years (or since the fund launched) compared with the fund's benchmark or comparator. The first table shows the total percentage change over **three months, six months** and one year, and the **annualised percentage change over three and five years**. Please note we have recently changed these performance periods and bases. The second table shows performance for 12-month periods over the last five years to the end of the last quarter.

ANNUAL PERFORMANCE (%)

12 months to 30 September	2024	2023	2022	2021	2020
Fund	18.57	7.56	-32.87	44.66	-3.54
Benchmark	20.01	11.83	-25.12	45.93	-9.62

Performance data source: Lipper. **Returns are calculated on the basis of daily midday dealing prices, those at which you transact.** Other fact sheets may show returns on a different basis, e.g. daily midday mid-market prices. Fund performance is shown net, which is after the deduction of the fund management charge.

The fund performance does not take account of any product charges applicable to your scheme. You can find more information about our charges in the terms and conditions booklet (for example, the Member's Booklet and Member's Policy Booklet) or Key Features documents.

Past performance is not a guide to the future. The value of an investment is not guaranteed and can go down as well as up. Exchange rate variations can cause the value of overseas investments to increase or decrease. You may not get back the amount you originally invested. For overseas markets the figures are sterling adjusted and net of any withholding tax.

CHARGES

Investment management charge (IMC) **0.20%**

Additional expenses (AE) **0.05%**

Fund management charge (FMC = IMC + AE) **0.25%**

The IMC is taken by adjusting the unit price of the fund daily.

FUND MANAGERS

Camilla Ayling, Portfolio Manager, Active Strategies, joined LGIM in 2019 from Rathbones, having previously worked at Barclays. She has a BSc (Hons) degree in Economics, is a CFA charterholder and holds the PRI's Foundations in Responsible Investments qualification and the CFA Certificate in ESG Investing.

Robert joined LGIM in 2018 as a Fund Manager for the UK Special Situations Trust. Prior to this Robert worked at Mirabaud Asset Management where he was an Assistant Fund Manager (2013 to 2018) on the UK Equities Core product. Before that he worked at PWC in their Transaction Services division. In total he has over 10 years experience working within financial services. He read Philosophy, Politics and Economics at Pembroke College, Oxford and is a member of the Institute of Chartered Accountants in England and Wales.

FUND SPECIFIC RISKS

- The fund invests in equities (shares of companies), so there is a higher risk of the fund's value being volatile (i.e. going up and down) than with a fund which invests in most other asset types, particularly in the short term.
- This fund invests in equities issued by smaller companies. These investments tend to be riskier than investments in larger companies because they may be harder to buy and sell and their price may be more volatile- particularly in the short term.
- The fund should be utilised as part of a diversified investment strategy within a wider portfolio of funds. These funds are not designed to be solely invested in.
- This fund is able to delay paying out, which may mean that you have to wait to get your money. A delay may happen when market conditions mean it is difficult for the fund manager to cash in investments to pay out to investors. For example, a fund with investments in commercial properties may find they may take time to sell. Whilst waiting to complete on the sale of properties, the fund manager may suspend making payments to investors who want to cash in. The fund can only delay paying out if it is in the interests of all investors.
